Product Description

200KG Medium Duty Warehouse Rack With Customizable Color Powder Coating Appearance For Efficient Storage

Product Description:

Medium duty racks are industrial shelving or storage systems designed to hold heavier loads than standard light duty racks, but not as heavy as those for industrial or heavy duty applications.

Medium duty racks can be freestanding or attached to walls, and are available in various heights, depths, and number of shelf levels.

Key considerations when selecting a medium duty rack include the weight, size, and number of items to be stored, available floor space, and accessibility requirements.
