

Heavy Duty Double Deep Pallet Racking System With 6000-21000kg Weight Capacity

Our Product Introduction

For more products please visit us on warehouse-rackings.com

Basic Information

- Place of Origin: China
- Brand Name: Qifei
- Certification: ISO9001 CE SGS
- Model Number: Double Deep Racking
- Minimum Order Quantity: 10
- Price: 50
- Packaging Details: Standard Export
- Delivery Time: 20 days after deposit
- Payment Terms: 30% deposit, 70% before delivery
- Supply Ability: 8000ton/year

Product Specification

- Usage: Warehouse Storage
- Weight Capacity: 1000-4000kg/ Layer, 6000-21000kg/ Bay
- Hs Code: 73089000
- Port: NANJING/SHANGHAI PORT
- Surface Treatment: Powder Coating
- Colors: Customized
- Guarantee: 3 Years
- Feature: Corrosion Protection
- Standard: ISO, DIN, ANSI, JIS, BS And Non-standard
- Scale: Heavy Duty
- Height: 6500mm
- Depth: 1200mm
- Highlight: Double Deep Pallet Racking System

Product Description

Product Description:

In situations where the SKU volume indicates you may require more pallet positions than standard selective pallet racking can produce, consider double-deep pallet racking. Double deep pallet racking is a simple and economical adaptation that places one row of 100% selective racking behind another. Using a deep reach forklift, the operator first places the rear pallet into the system and then places the other pallet in front of it.

While the selectivity is reduced by one-half over standard pallet racking, twice as many pallets can be stored for a given number of aisles. These warehouse pallet racking systems increase the productive utilization of floor space by approximately 60% to 65%.

Double-depth storage racking has become a very popular choice for "high throughput" operations. It offers low initial cost, high productivity, good selectivity and less equipment damage.

Applications:

- Large Capacity SKU Storage Requirements

- Space is limited
- Combine selective and high density pallet racking at a lower cost

Parameters:

Style	Warehouse Storage Pallet Rack
Selection	Double-deep
Dimension	Standard Pallet:1200*800 / 1200*1000 1100*1100 / 1066*1220 Depth:1000MM / 900MM / 1020MM Width: 2700MM / 2300MM / 2500MM / 2432MM Height: pitch is adjusted by increments of 75mm Customized Pallet:contact us directly
Upright	80*60; 90*60; 90*70; 90*75; 100*67; 100*70; 100*75; 120*75; 120*87mm, Thickness:1.5~3.0mm
Beam	Height:80~160mm; Width:45mm/50mm; Thickness:1.5~2.5mm
Bearing Capacity	5000KG per level max ; 1500KG per pallet max
Material	Q235B
OEM&ODM	Available
Surface Treatment	Galvanized/Powder Coating
Color	Customized
Sample	Available
General Use	Warehouse Shelving/Rack, etc.

Packing and Shipping:

Packaging:

The Double Deep Pallet Racking product is carefully packaged to ensure safe delivery. The uprights and beams are wrapped in protective foam and then securely strapped together. The pallet racking components are then placed on a sturdy wooden pallet and shrink-wrapped to prevent movement during transportation.

Shipping:

EXPRESS

Express door to door is the most convenient one. 5-7days will arrive

EMS **FedEx** **UPS** **DHL**
