Basic Information

- Place of Origin: China
- Brand Name: Qifei
- Certification: ISO9001 CE SGS
- Model Number: Wire Mesh Container
- Minimum Order Quantity: 10
- Price: TBD
- Packaging Details: Standard Export
- Delivery Time: 20 days after deposit
- Payment Terms: 30% deposit, 70% before delivery
- Supply Ability: 8000ton/year

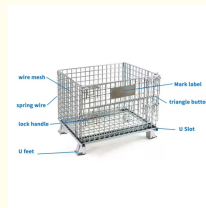

Product Specification

- Wire Diameter: 4.2-6mm
- Shape: Rectangular
- Customization: Available
- Multi-Purpose: Yes
- Load Capacity: 100-1500kg
- Material: Steel
- Wire Hole: 50-100mm
- Color: SILVER
- Highlight: rectangular wire mesh bins, rectangular wire mesh container

Product Description

Steel Wire Mesh Container Rectangular Industrial Mesh Basket With 100-1500kg Load Capacity

Product Description:

Wire mesh containers: A versatile storage solution

Wire mesh containers, also referred to as wire baskets or wire cages, are practical storage and organization solutions that are constructed using woven metal wire. These containers are widely used in various settings including retail stores, warehouses, kitchens, workshops, and homes to facilitate storage, display, and transportation.

Wire mesh containers come in diverse configurations such as round, square, rectangular or stackable and are available in a variety of sizes. These containers range from small desktop organizers to larger industrial-scale bins.

Galvanized or stainless-steel wire is the most common material used to make these containers owing to its durability and resistance to corrosion. The wire mesh openings vary in size and can be fine or large.

Wire mesh containers offer several advantages including stackability, easy access, good airflow and visibility of contents. In addition, they are lightweight yet sturdy and can store numerous items such as linens, tools, produce, and parts.

Overall, wire mesh containers are versatile and suitable for material handling, display purposes, storage and organization applications across a broad spectrum of industries.

Loading capacity (kg)	Size (mm)	Wire diameter (mm)	Weight (kg)
200	800*600*640	4.8	21
300	1000*800*840	4.8	28
400	800*600*640 1000*800*840	4.8/5.2	23
500	1000*800*840 1200*1000*890	4.8/5.2	35/36
600	800*600*640 1000*800*840	5.4/5.6	26/38
700	1200*1000*890	4.8/5.2	40/43
800	800*600*640 1000*800*840	5.6/5.8	28/41
900	1200*1000*890	5.6	47
1000	800*600*640 1000*800*840	5.8/6.0	30/44
1200	1000*800*840 1200*1000*890	5.6/6.0	45/54
1300	1200*1000*890	5.8	56
1500	1200*1000*890	6	60

Applications:

Qifei's Wire Mesh Container is made from high-quality metal wire with a diameter of 4.2-6mm, making it sturdy and durable. The wire hole is 50-100mm, which can accommodate various sizes of goods. The color of the container is silver, which is simple and elegant, and can be customized to meet the customer's requirements. The container is also reusable, which is eco-friendly and cost-effective.

The Wire Mesh Container is suitable for a wide range of application occasions and scenarios. It can be used in storage and transportation, logistics, warehousing, and other industries. The container is an excellent choice for storing and transporting heavy and bulky goods, as it can bear a large weight and is easy to move due to its casters. It is also suitable for stacking, which can save space and increase storage capacity.

The Wire Mesh Container can be used in many different ways, such as storing automotive parts, machinery, electronic equipment, and more. It is also ideal for storing and transporting perishable goods, as it allows for proper ventilation and air circulation. The container is also suitable for use in retail stores, where it can be used to display products or store inventory.
