### Product Description

Rectangular Wire Mesh Container Silver Color , Industrial Wire Bins 100-1500kg Load

Product Description:

Wire mesh containers, or wire baskets and wire cages, are an excellent solution for storage and organization made from woven metal wire. These versatile containers are used for storage, display, and transportation in various settings, including warehouses, retail stores, workshops, kitchens, and homes.

Wire mesh containers come in many sizes, shapes, and configurations, ranging from rectangular to square, round, or stackable. The metal wire used is mainly either galvanized steel or stainless steel, providing durability and corrosion resistance. Additionally, the mesh openings vary in size from small fine mesh to larger openings.

The key benefits of wire mesh containers include excellent airflow, visibility of contents, stackability, and easy access. They are lightweight yet sturdy, and can be used to store a variety of items such as parts, tools, produce, linens, and more.

Wire mesh containers are versatile, making them useful for storage, organization, material handling, display purposes, and more across many industries and applications. Whether a small desktop organizer or a large industrial-scale bin, wire mesh containers are an efficient and reliable storage solution.

Loading capacity (kg)	Size (mm)	Wire diameter (mm)	Weight (kg)
200	800*600*640	4.8	21
300	1000*800*840	4.8	28
400	800*600*640 1000*800*840	4.8/5.2	23
500	1000*800*840 1200*1000*890	4.8/5.2	35/36
600	800*600*640 1000*800*840	5.4/5.6	26/38
700	1200*1000*890	4.8/5.2	40/43
800	800*600*640 1000*800*840	5.6/5.8	28/41
900	1200*1000*890	5.6	47
1000	800*600*640 1000*800*840	5.8/6.0	30/44
1200	1000*800*840 1200*1000*890	5.6/6.0	45/54
1300	1200*1000*890	5.8	56
1500	1200*1000*890	6	60

### Applications:

The Wire Mesh Container is perfect for use in factories, warehouses, and distribution centers for storing and transporting goods. Its reusable design and load capacity of 100-1500kg make it an ideal choice for businesses that require frequent movement and storage of heavy products. The wire hole size of 50-100mm ensures that even small items can be securely stored.

This product is available in a sleek silver color and can be easily integrated into any workspace.

In summary, Qifei's Wire Mesh Container is a versatile and durable product that can be used in a variety of scenarios. Its steel construction and butterfly cage design make it an ideal choice for heavy-duty use, while its reusable design and small wire hole size make it perfect for storing and transporting goods.
