Basic Information

- Place of Origin: China
- Brand Name: Qifei
- Certification: ISO9001 CE SGS
- Model Number: Wire Mesh Container
- Minimum Order Quantity: 10
- Price: TBD
- Packaging Details: Standard Export
- Delivery Time: 20 days after deposit
- Payment Terms: 30% deposit, 70% before delivery
- Supply Ability: 8000ton/year

Product Specification

- Reusable: Yes
- Customization: Available
- Load Capacity: 100-1500kg
- Stackable: Yes
- Shape: Rectangular
- Wire Hole: 50-100mm
- Wire Diameter: 4.2-6mm
- Size: Various Sizes Available
- Highlight: stackable wire mesh pallet cage, stackable wire mesh bins, rectangular wire mesh bins

Product Description

Heavy Duty Stackable wire mesh cage with Customizable Load Capacity and 50-100mm Wire Hole

Product Description:

Wire mesh containers, also referred to as wire baskets or wire cages, are multi-functional storage and organization solutions made from woven metal wire. These containers are popularly used in a variety of settings such as warehouses, retail stores, kitchens, workshops, and homes for storage, display, and transportation purposes.

Wire mesh containers come in various shapes, sizes, and configurations, including rectangular, square, round or stackable. The sizes available range from small desktop organizers to large industrial-scale bins. The metal wire used in manufacturing these containers is often galvanized steel or stainless steel, providing durability and corrosion resistance. The mesh openings size can vary from small fine mesh to larger openings.

Wire mesh containers have several benefits, such as good airflow, easy access, visibility of contents, and stackability. They are both sturdy and lightweight, allowing them to store a range of items like parts, tools, produce, linens, and more.

Due to their versatility, wire mesh containers can be used for various purposes such as storage, display, organization, and material handling in different industries and applications.

Applications:

Whether you need a turnover cage for your warehouse or a butterfly cage for your distribution center, the Qifei Wire Mesh Container is the perfect choice. Its stackable design makes it easy to store and transport, while its multi-purpose use means that it can be used for a wide range of products and applications.

The wire hole of 50-100mm ensures that this product is suitable for a wide range of products, while its rectangular shape makes it easy to stack and store. Whether you need to store and transport large items or small parts, the Qifei Wire Mesh Container is the perfect choice.

Parameters:

Loading capacity (kg)	Size (mm)	Wire diameter (mm)	Weight (kg)
200	800*600*640	4.8	21
300	1000*800*840	4.8	28
400	800*600*640 1000*800*840	4.8/5.2	23
500	1000*800*840 1200*1000*890	4.8/5.2	35/36
600	800*600*640 1000*800*840	5.4/5.6	26/38
700	1200*1000*890	4.8/5.2	40/43
800	800*600*640 1000*800*840	5.6/5.8	28/41
900	1200*1000*890	5.6	47
1000	800*600*640 1000*800*840	5.8/6.0	30/44
1200	1000*800*840 1200*1000*890	5.6/6.0	45/54
1300	1200*1000*890	5.8	56
1500	1200*1000*890	6	60
