Applications:

The Heavy Duty Pallet Racking can be used in a variety of application occasions. It is ideal for storing large and bulky items such as machinery, equipment, and raw materials. With a pitch of beam ranging from 50-75mm, the racking system can be adjusted to accommodate different sized items. The pallet racking can also be used in retail spaces to store heavy items such as electronics, appliances, and furniture.

The Heavy Duty Pallet Racking is perfect for scenarios where space is a concern. With 2-8 levels, it can be configured to fit into small or large spaces. This makes it an ideal solution for businesses that need to maximize their storage space. The pallet racking is also designed to be easy to install and dismantle, making it ideal for businesses that need to move their storage system around frequently.

The Heavy Duty Pallet Racking is packaged in standard export packaging and has a package size of 1000.00cm * 1000.00cm * 1000.00cm. The minimum order quantity is 10, and the price is TBD. Delivery time is 20 days after deposit, and payment terms are 30% deposit, 70% before delivery. With a supply ability of 8000ton/year, businesses can count on Qifei's Heavy Duty Pallet Racking to be a reliable solution for their storage needs.

Overall, Qifei's Heavy Duty Pallet Racking is a dependable and versatile solution for businesses that need to store heavy items. With its rugged design, it can withstand the demands of industrial storage, while its adjustable configuration means it can be used in a variety of settings. If you need a sturdy and reliable storage solution, look no further than the Heavy Duty Pallet Racking from Qifei.
