

Silver Wire Mesh Cage For Storage With Customizable Hole And Wire Diameter

Our Product Introduction

For more products please visit us on warehouse-rackings.com

Basic Information

- Place of Origin: China
- Brand Name: Qifei
- Certification: ISO9001 CE SGS
- Model Number: Wire Mesh Container
- Minimum Order Quantity: 10
- Price: TBD
- Packaging Details: Standard Export
- Delivery Time: 20 days after deposit
- Payment Terms: 30% deposit, 70% before delivery
- Supply Ability: 8000ton/year

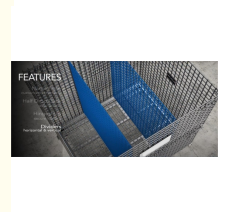

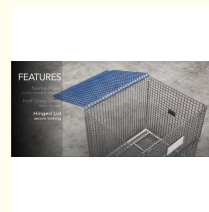

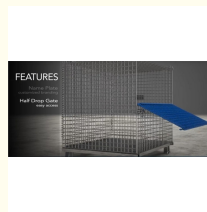

Product Specification

- Color: SILVER/Customized
- Wire Hole: 50-100mm
- Customization: Available
- Material: Steel
- Wire Diameter: 4.2-6mm
- Size: Various Sizes Available
- Reusable: Yes
- Stackable: Yes
- Highlight: Storage Wire Mesh Cage, Flexible Silver Wire Mesh Cage, Customizable Hole Wire Mesh Cage

Product Description

Product Description:

Storage cages offer a fixed storage capacity and the ability to stack items in a clean and organized manner. With clear visibility of stored items, inventory checks have never been easier for storage enterprises. Furthermore, these cages have been designed to maximize storage space efficiency.

On top of that, storage cages are highly durable and reusable, decreasing the labor costs and packaging expenses associated with storage. These cages can be used in various settings - from factory production workshops to supermarket display storage. Moreover, the improved storage cage offers even further versatility. It can be placed on shelves, assembly lines, or stacked for easy and convenient access. For added mobility in the workshop, there are storage cages with wheels available. Additionally, there are cages equipped with PVC or iron plates that prevent smaller items from getting lost or misplaced.

Our Product Introduction

Features:

Our cold-rolled hardening technology allows us to weld steel with excellent quality, providing high strength and an outstanding loading capacity.

We offer unified specifications and fixed capacity, making inventory management easy and efficient. With our product, you can store goods at a glance, and perform inventory with ease.

In addition, we utilize a galvanized surface treatment to ensure a beautiful, anti-oxidizing finish, and a long service life.

Our products comply with international standards, meaning that they can be used in conjunction with containers to effectively improve space utilization rates. Furthermore, these products can be stacked four layers high, achieving three-dimensional storage.

Our surface treatment methods use environmentally friendly materials and are designed to be sanitary and immune to pollution.

Turnover, storage, and recycling can all be carried out without polluting the environment.

Our products can be operated easily, with the help of equipment such as forklift trucks, ground cows, lift machines, and cranes.

Our folding structure makes it easier and more efficient to recover our products than traditional wooden packaging boxes. Moreover, they can be equipped with wheels on the bottom, making internal turnover within the factory both simpler and faster.

Technical Parameters:

Loading Capacity (kg)	Size (mm)	Wire Diameter (mm)	Weight (kg)
200	800*600*640	4.8	21
300	1000*800*840	4.8	28
400	800*600*640 1000*800*840	4.8/5.2	23
500	1000*800*840 1200*1000*890	4.8/5.2	35/36
600	800*600*640 1000*800*840	5.4/5.6	26/38
700	1200*1000*890	4.8/5.2	40/43
800	800*600*640 1000*800*840	5.6/5.8	28/41
900	1200*1000*890	5.6	47
1000	800*600*640 1000*800*840	5.8/6.0	30/44
1200	1000*800*840 1200*1000*890	5.6/6.0	45/54
1300	1200*1000*890	5.8	56
1500	1200*1000*890	6.0	60

These products are suitable for various applications and can handle different loading capacities depending on the size and wire diameter selected. Please refer to the table for detailed specifications and choose the most suitable product for your specific needs.

Applications:

Thanks to its strong and sturdy construction, this wire mesh cage is reusable and can withstand multiple uses. It is made from high-quality steel with a wire diameter of 4.2-6mm, ensuring that it is robust and long-lasting. Its silver color gives it a sleek and professional appearance, but it can also be customized to suit your specific needs.

Qifei's Wire Mesh Container is certified with ISO9001, CE, and SGS, ensuring that it meets international quality standards. It also has a minimum order quantity of 10 units, with a supply ability of 8000ton/year, making it easily accessible to businesses of all sizes.

This steel cage is also easy to transport and store, with its standard export packaging details. Delivery time is 20 days after deposit, and payment terms are 30% deposit and 70% before delivery.

Some of the occasions and scenarios where the Wire Mesh Container can be used include:

Storage and transportation of heavy machinery parts in factories

Storage of raw materials in warehouses

Transportation of tools and equipment to construction sites

Temporary storage of goods during events and exhibitions

Storage of perishable goods in supermarkets and grocery stores

Overall, Qifei's Wire Mesh Container is a high-quality, versatile, and durable steel cage that can be used in a wide range of applications. Its certification, supply ability, and customizable options make it an attractive choice for businesses looking for a reliable storage and transportation solution.
