Basic Information

Product Specification

- Model NO.: QIFEI-010
- Material: Steel
- Structure: Drive In Rack
- Type: Multi-Level Racking
- Mobility: Adjustable
- Height: 0-5m
- Weight: 500kg
- Closed: Open
- Development: Conventional
- Serviceability: Common Use
- Color: Customized
- Lead Time: 15 Days
- Raw Material: Q235
- Surface Treatment: Powder Coating
- Transport Package: Safe

Product Description

***Note: The specifications, sizes, colors and surface treatments of the products can be customized!**

Push Back Rack

Push-back shelf, also known as push-in shelf, is composed of typical structural components such as pallet trolley. Pallet trolley has flow characteristics and is usually used in storage sites with very limited space. Such shelves have the typical characteristics of high storage density and fast storage and transportation.

Push-back shelf, also known as push-in shelf, is a multi-layer carriage overlapping between the front and rear beams, pushing stacked goods into the carriage from the outside, and pushing the original goods into it after storage.

The push-back shelf has the following characteristics:

Pressure-in rack is composed of typical structural parts such as pallet trolley. Pallet trolley has the characteristics of flow. Goods are stipulated to enter and exit at one end of the rack and follow the order of first-in-last-out.

Forklift trucks only work at the lower end of the shelf passage when storing and transporting goods, and there is no need to enter the shelf passage. Such shelves have the typical characteristics of high storage density and fast storage and transportation.

Often used for storage sites are extremely limited, but must increase storage capacity or time requirements for goods such as goods sorting requirements are not high occasions.

Company Profile

Jiangsu Qifei Intelligent Storage Equipment Co., Ltd., established in 2020, is one of the leading manufacturer which specialized in designing & manufacturing industrial warehouse storage racks, automation warehouse system and professional logistics equipment, we aim to provide cost-effective and space utilization storage solutions for all customers worldwide . We have powerful R&D teams, including 8 experienced design engineers.

Qifei's workshop equipped with 6 automatic production lines of rolling and curved steel and two static powder coating lines, which ensures the high quality of our products. All our products and operation are ISO:9001 certified , and all our racks / shelving are approved by SGS company .

Our main products are heavy duty rack, medium duty rack, light duty rack, cantilever rack, mezzanine floor, drive in rack, and so on.
